● PROFILE

I work as an ICT Programmer specializing in full-stack Laravel web applications. Driven by software engineering and web security, I combine clean development practices with insights gained from CTF challenges and security audits to deliver safe, efficient systems.

● WORK EXPERIENCE

ICT Programmer

October 2023 - Present

MOELCI-I

Serving as ICT Programmer, leading the end-to-end design, development, and deployment of internal enterprise web systems and database solutions using Laravel. Responsible for managing cloud server infrastructure, database administration, application maintenance, and performing web security assessments to safeguard organizational systems and data.

Computer Operator @ LGU Oroquieta City (Job Order)

February 2022 - October 2023

Office of the City Planning and Development Coordinator

- Provided IT operations and data management support for city planning, zoning, and urban development records.
- Digitized and maintained city planning databases, demographic statistics, and developmental project documents.
- Assisted in technical troubleshooting, system administration tasks, and generating official planning reports for office operations.

Query Developer @ Jarvis Analytics

August 2020 - October 2020

Remote Work

Engaged in a 3-month contract role focused on authoring and optimizing SQL database queries for analytical reporting. Worked on data extraction, transformation, and validation to support client analytics and reporting dashboards.

WrupUp.ph Intern

June 2018 - August 2018

Iligan City

Contributed to the development of WrupUp.ph, a local freelance marketplace platform connecting tech talent in Iligan City with client projects. Assisted in building core web features, responsive UI elements, and backend data flows while collaborating with team members to improve platform usability and functionality.

● EDUCATION

BS in Computer Science (Foundation of Computer Science)

2014 - 2020

Mindanao State University - Iligan Institute of Technology

Focused on core computer science principles, algorithms, data structures, database management, software engineering, and web development. Completed practical capstone projects involving web application development and database design.

Placida Mequiabas National Highschool

2010 - 2014

Lapinig, Kapatagan, Lanao del Norte

Completed secondary education with a strong emphasis on mathematics, science, and introductory computer operations. Active participant in school academic and extracurricular activities.

Elementary School

2004 - 2010

Margos Elementary School

Completed primary education laying foundational academic skills in mathematics, communication, science, and introductory technology.
